

Oh,

what

Fun!

About Me

Hello! My name is Carolyn. I decided to take this course to develop my skills in Adobe, and pursue a career in graphic design. The color theme incorporated in this project is meant to highlight vibrant colors.

FIRST EDITION

WOOF

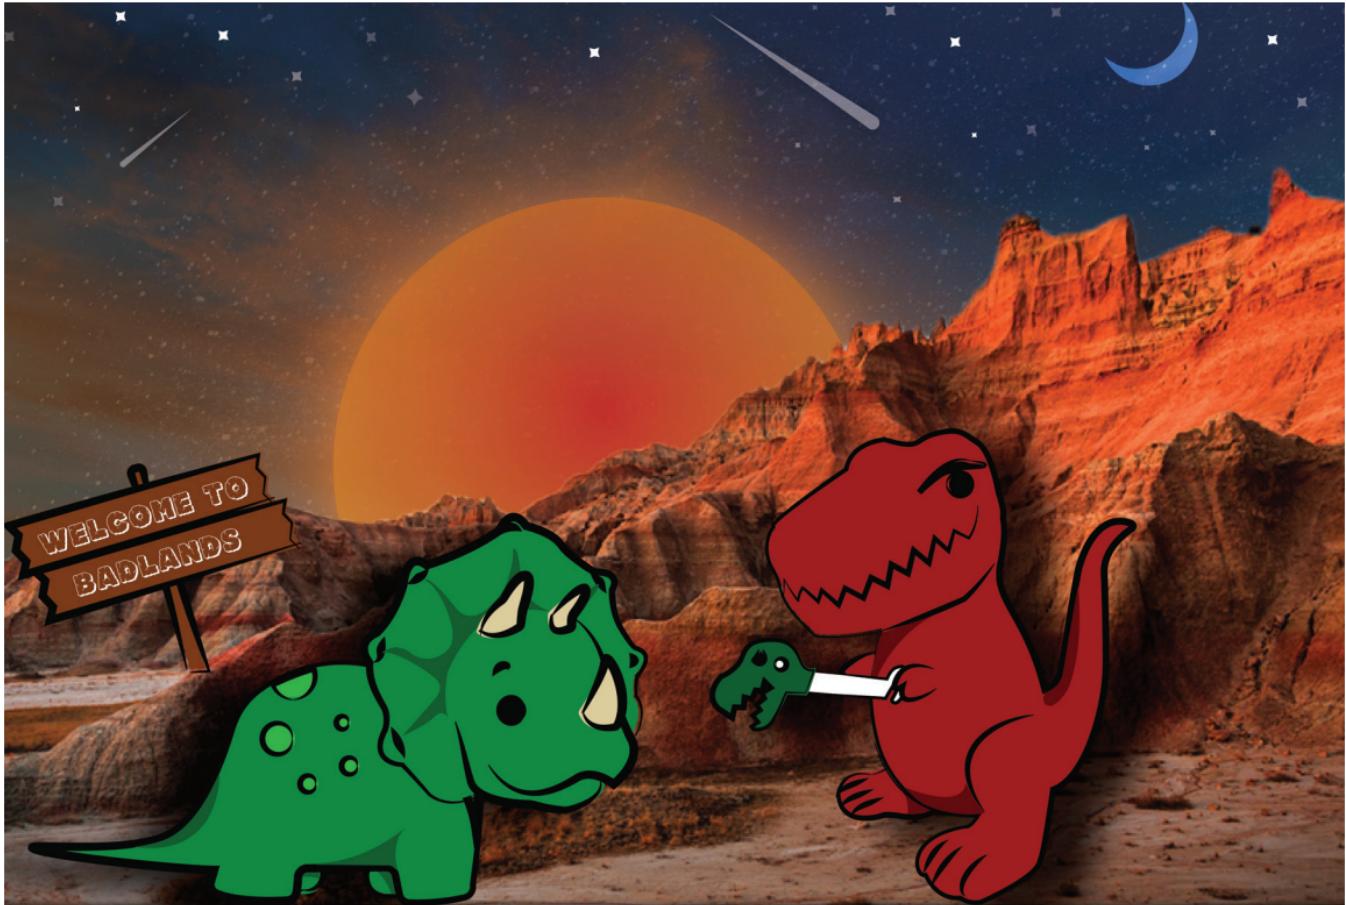

Super Hero

For my project, I believed it would be fun to showcase a photo that I took of the Brooklyn Bridge, and to have my dog, Michi, as a super hero. My photo also includes cooler tones to mimic the Batman comics.

Project

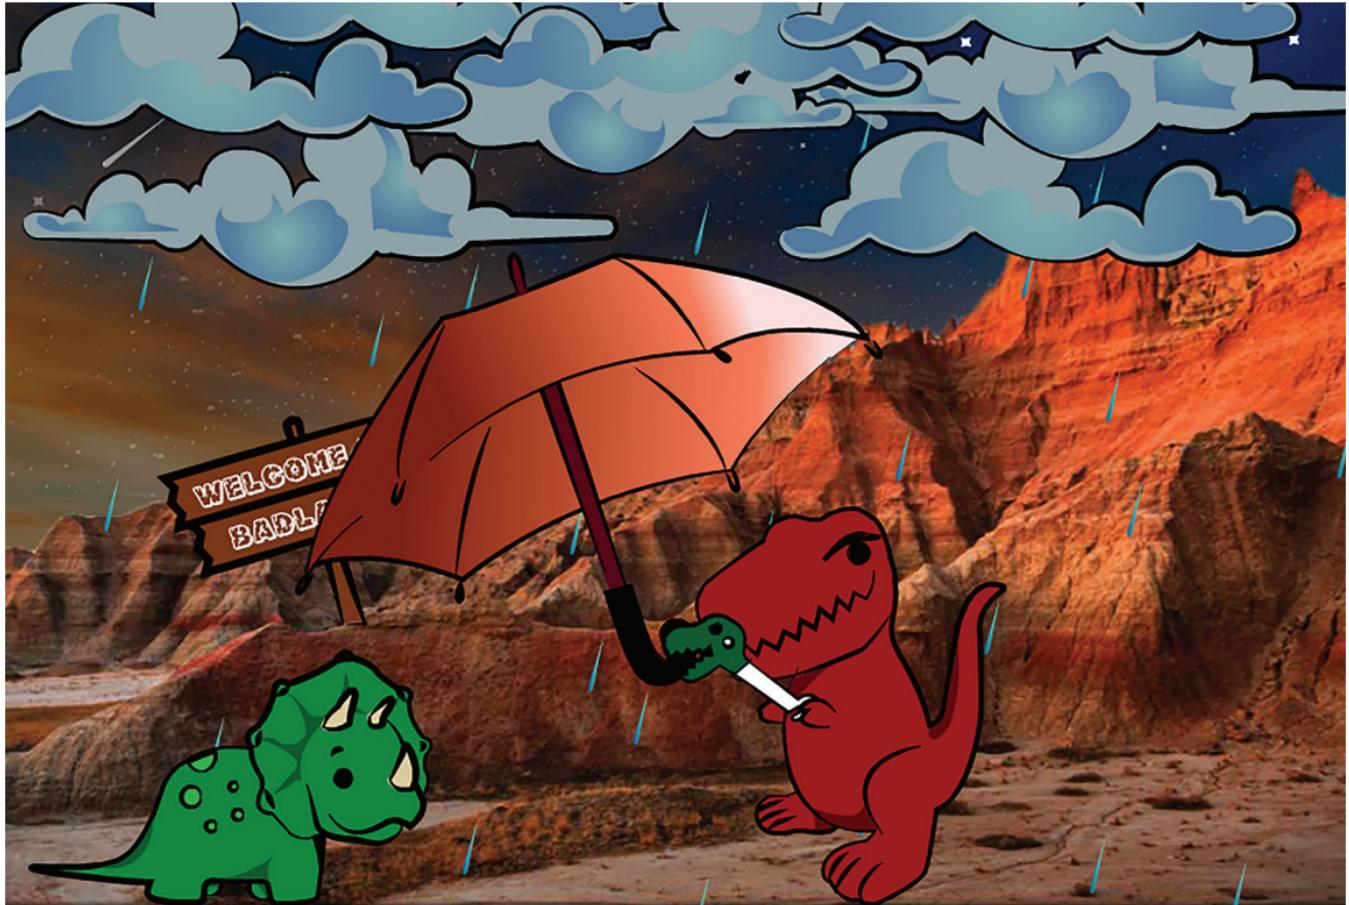

Dinosaurs

I have a slight obsession with dinosaurs, and I was inspired to draw a T-Rex from a plush I have. I also wanted to highlight warmer tones for this project, since I went with cooler tones in my first one.

Project

Friends

This was the most challenging, but rewarding project yet. The main story of my animation was to have my characters work together. The hardest aspect was to have my characters move smoothly. In the end, everything came together, and I'm happy with the final product.
